

TECHNICAL DATA SHEET

EnviroDri® Window & Door

Cold-Applied, Self-Adhering Membrane

PRODUCT DESCRIPTION

EnviroDri® Window & Door is a cold-applied, self-adhering membrane composed of a butyl rubber with a Kraft paper liner for easy installation. This product fully integrates with the EnviroDri Weather-Resistant Barrier System to provide you with the next level of protection against air and moisture intrusion around windows, doors, and some utility penetrations.

BASIC USES

EnviroDri Window & Door is used to seal around window and door assemblies, as well as some utility penetrations.

FEATURES & BENEFITS

- 4" or 6" wide x 75' long roll
- Butyl-based material offering exceptional adhesion to most building materials
- Specifically engineered and designed to provide an air and moisture seal around doors and windows. Integrated seamlessly with the EnviroDri Field Membrane
- Resists UV degradation for up to 1 year of direct sun exposure
- Provides strong and immediate adhesion over a wide range of installation temperatures, and remains pliable at low temperatures
- Imprinted with the EnviroDri brand to extend the brand recognition for your protected homes

WARRANTY

A repair or replacement warranty is available on all Tremco products. Visit <https://www.tremcosealants.com/warranties/> for details.

TYPICAL PHYSICAL PROPERTIES

PROPERTY	DESCRIPTION	
Color	Black	
Thickness	20 mils (16 mils adhesive; 4 mils backing)	
Application Temperature Range	30-150 °F	
Packaging	Roll Width: 4" (12 rolls/carton) 6" (8 rolls/carton)	Roll Length: 75'
Storage	Store in unopened container between 40-90 °F	
PROPERTY	TEST METHOD	TYPICAL RESULTS
Tensile Strength	ASTM D1000	60 lb/in
