

We certify that THC-900™/THC-901™ has been tested against ASTM C 920, Standard Specification for Elastomeric Joint Sealants and does conform to the specification requirements. THC-900/THC-901 is classified as follows:

Type: M	(Multi-Component)
Grade: P	(Pourable)
Class: 25	(+/- 25% joint movement)
Use: T	(Traffic)
M	(Mortar)
O	(Other)

We further certify that THC-900/THC-901 conforms to the requirements of Federal Specification TT-S-00227E, Type I, Class A.

Although THC-900/THC-901 is not NSF registered, or previously authorized by USDA, it does meet the requirements for use in Federally inspected food processing facilities provided it is not used in areas where food is being processed, prepared or packaged. The material must also be applied in a manner which prevents any direct or indirect contamination of food. Additionally, before any food product can be placed in the area of treatment, the sealant must be allowed to cure according to manufacturer's recommendations and the area should be sufficiently free of odor to prevent food contamination.

In addition, THC-900 is listed with **Underwriters Laboratories** in the following systems:

FF-D-1064	FF-D-1065
FW-D-1060	FW-D-1061
WW-D-1055	HW-D-1055

THC-900 is listed with **Underwriters Laboratories** in the following systems: JF34
