

PRODUCT DESCRIPTION

Extruded silicone rubber products provide weathertight seals that are resistant to sunlight and ozone while retaining the rubbers physical properties, even in the most extreme temperatures. Tremco offers 12 standard colors for an aesthetically pleasing appearance with a quick production process. Custom colors are available upon request at an extended lead time.

Custom colors available upon request. Contact your local Tremco sales representative for pricing and availability.

All colors shown are approximate and may not reflect sheen or shade precisely, as varying amounts of aggregate will alter light-reflecting properties. Tremco always recommends a test patch to gain final color approval. Different lighting conditions can influence color appearance: for truer color please view in daylight. Some colors may require a minimum quantity. Custom colors are available upon request. Contact Tremco Customer Service for more information.
