RE: Acoustical Sealant—Green Building Product Information (LEED v4.1 Information)

Tremco Incorporated is an organization that is committed to quality, our employees, and our environment. We are responsive to both internal and external customers, and we pledge to treat everyone with good stewardship and respect.

Tremco Incorporated certifies the following for Acoustical Sealant:

Building Product Disclosure and Optimization:

Acoustical Sealant is manufactured in Toronto, Canada.

No single extracted material is used to produce the majority of this product.

Recycled content for Acoustical Sealant is not available, and for the purposes of LEED reporting should be assumed to be zero.

Low Emitting Materials - VOC Content Information:

Acoustical Sealant is a sealant with a VOC content of 155g/L equaling 10% as applied/mixed. As such, VOC levels are lower than the limits set by SCAQMD rule 1168.

Green Chemistry:

Tremco Incorporated is dedicated to the environment and prides itself on making its products as sustainable as possible. We are pleased to report that this product is produced without any Red List chemicals. As such, it can be used to assist in finishing projects aimed towards achieving a Living Building Challenge certification.
