To Whom It May Concern:

RE: TremGlaze UA1300—Green Building Product Information (LEED v4 Information)

Tremco Incorporated is an organization that is committed to quality, our employees, and our environment. We are responsive to both internal and external customers, and we pledge to treat everyone with good stewardship and respect.

Tremco Incorporated certifies the following for TremGlaze UA1300:

Building Product Disclosure and Optimization:

TremGlaze UA1300 is manufactured in Greenville, South Carolina.

No single extracted material is used to produce the majority of this product.

Recycled content for TremGlaze UA1300 is not available, and for the purposes of LEED reporting should be assumed to be zero.

Low Emitting Materials - VOC Content Information:

TremGlaze UA1300 is a urethane sealant with a VOC content of 18g/L equaling 1% as applied/mixed. As such, VOC levels are lower than the limits set by SCAQMD rule 1168.

Green Chemistry:

Tremco Incorporated is dedicated to the environment and prides itself on making its products as sustainable as possible. We are pleased to report that this product is produced without any Red List chemicals. As such, it can be used to assist in finishing projects aimed towards achieving a Living Building Challenge certification

Additional Information:

Should you have any questions or require additional information, please do not hesitate to contact Technical Services or your local Tremco Field Representative.

Sincerely,

RE: TREMprime HR Primer—Green Building Product Information (LEED v4 Information)

Tremco Incorporated is an organization that is committed to quality, our employees, and our environment. We are responsive to both internal and external customers, and we pledge to treat everyone with good stewardship and respect.

Tremco Incorporated certifies the following for TREMprime HR Primer:

Building Product Disclosure and Optimization:

TREMprime HR Primer is manufactured in Delta, British Columbia, Canada.

No single extracted material is used to produce the majority of this product.

Recycled content for TREMprime HR Primer is not available, and for the purposes of LEED reporting should be assumed to be zero.

Low Emitting Materials - VOC Content Information:

TREMprime HR Primer is a exterior applied waterproofer with a VOC content of 145g/L equaling 10% as applied/mixed. Because this product is an exterior applied product, LEED v4 Low Emitting Materials criteria only apply if the project is a Healthcare or School. If the project is a Healthcare or School, project teams can use VOC budgeting to ensure their projects are st

Green Chemistry:

Tremco Incorporated is dedicated to the environment and prides itself on making its products as sustainable as possible.

Manufacture Inventory:

Chemical Name or Role	CAS Number	Amount	GHS Hazard
Asphalt	8052-42-4		
Tert-Butyl Acetate	540-88-5		
Xylene	1330-20-7		

Additional Information:

Should you have any questions or require additional information, please do not hesitate to contact Technical Services or your local Tremco Field Representative.
