

Superior Solutions for the OEM Market

The 1997 acquisition of Tremco by RPM Incorporated and the subsequent combining of Tremco with Mameco International and its subsidiary, Paramount Technical Products, provided Original Equipment Manufacturers with access to over 100 years of superior weatherproofing solutions including sealants, coatings, rubber extrusions and tapes.

Today, Tremco's name is widely accepted as the pioneer dedicated to advances in construction, building maintenance and manufactured systems technology. Tremco sealants, coatings, rubber extrusions, membranes and tapes are routinely specified for commercial and residential construction as well as vehicular and manufactured products, throughout the globe.

In addition to a comprehensive product offering, the TremPro line of products meets demanding requirements including durable weatherproof seals for joints and seams while maintaining aesthetic integrity; protection against stress and vibration; chemical, heat and UV resistance; and reduced production time.

Through our Technical Services department and with experienced field representatives in every major market throughout North America, Tremco is uniquely positioned to provide technical assistance including specification development, application-specific product design, problem-solving and assistance on-site.

As the definition of traditional building continues to adapt to changing materials technologies, TremPro products have become the solution for pre-engineered metal buildings and pre-manufactured housing.

In the transportation market, Tremco sealants and extruded rubber solutions are regularly specified for railroad and specialized automotive applications as well as trailer, van, RV manufacturing, metal container and even agricultural engineering requirements.

With a comprehensive product line, professional technical and engineering support, on-site assistance, and more than a century of experience in the industry, Tremco is uniquely positioned to provide single-source solutions to our OEM customers worldwide.

Color Options:

OEM Product	Description	Basic Uses		Packaging	Standard Colors	
TremPro 626	One-part, medium modulus, gun grade textured polyurethane sealant.	*Lap joints *Containers *Rail cars	*Truck seams *Mobile homes *Recreational vehicles (RV)	10.1 oz. cartridge, 20 oz. sausage, 5-gallon pail or 55-gallon drum	Gray, White, Aluminum, Dark Bronze, Limestone, Ivory, Black, Bronze	
TremPro 635	One-part, high-performance, medium modulus, fast cure, gun grade polyurethane sealant, utilizing a solvent-free technology.	*Trailers *Campers *Specialty Vehicles	*Trucks *Buses/Trains *Pre-engineered buildings	10.1 oz. cartridge, 10 and 20 oz. sausage, 5 gallon pail and 55 gallon drum	Gray White	
TremPro 638 SSL	One-part, high-performance, low modulus, semi-self-leveling polyurethane sealant.	*Sloped joints *Floor assemblies	*Railcar seams *Truck utility trailer roof	Quart cartridge, 5 gallon pail and 55 gallon drum	Gray	
TremGard 640 TremGard 642	One-part liquid sprayable or brushable polyurethane coatings for industrial use.	*Waterproof the inside or outside of containers		1 gallon can and 5 gallon pail	Aluminum	
TremPro 644 RTV	One-part, general purpose, acetoxysilicone sealant	*Glass, aluminum, metal & metal alloys joint sealer		10.1 oz. cartridge	Aluminum, Clear, Black, White	
TremPro 644 HT	One-part, high-temperature silicone sealant.	*High temperature situations		10.1 oz. cartridge	High Temp Red	
TremPro 645	One-part, high-performance, medium modulus, neutral cure silicone sealant.	*Recreational vehicles *Cabs	*Truck trailers	10.1 oz. cartridge	Clear, White, Semi-Translucent	
TremPro 651	Blend of butyl rubber and polyisobutylene to form an economical, flexible sealant.	*Truck trailers *Shipping containers	*Cabs *Modular homes *Bus bodies *Railroad cars	10.1 oz. cartridge, 20 oz. sausage, 4.5 gallon pail and 50 gallon drum.	Black (ctgs), Aluminum Stone (ssgs)	
TremPro 655	High-performance, silicized acrylic latex sealant.	*Trucks & Trailers *Shipping containers	*RV utility bodies *Modular homes	10.1 oz. cartridge & 5 gallon pail	White	
TremPro 659	One-part, high-performance, elastomeric sealant.	*Modular homes *Metal & vinyl trim *Perimeter sealing *Recreational vehicles	*Gutter *Siding *Roofing	*Truck trailers *Bus bodies *Cabs	10.1 oz. cartridge and 20 oz. sausage	Clear, Graystone
TremPro JS-773	High solids, non-skinning, non-drying, synthetic, butyl elastomer sealant.	*Panel joints *Interior panel joints of PEMB panels		10.1 oz. cartridge, quart cartridge, 20 oz. sausage, 5 gallon pail and 52 gallon drum	Off-White	
TremPro MBRV Tape	High-quality tape compounded from butyl and polyisobutylene.	*Pre-engineered metal buildings *Standing seam roofs *Manufactured housing	*RV	Supplied in rolls of popular lengths and profiles. Sizes range from 1/16" to 1/2" in thickness and 1/4" to 2-1/2" in width.	Gray	
TremPro 691	100% solid, crosslinked butyl, preformed sealant.	*Lap sealing between panels		Supplied in rolls of popular sizes and shapes ranging from 1/16" to 1/4" in thickness and 1/4" to 1" in width.	Black	
TremPro 696	100% solid, macro-polyisobutylene preformed tape with an integral, continuous EPDM spacer shim.	*Truck trailers *Bus bodies *Cooling tower applications	*Mobile homes *RV	Standard thickness and face clearances: Thickness of tape: 0.150", 0.215", 0.280" Face Clearance of shim: 1/8", 3/16", 1/4"	Black	
TremPro Cellular	Fabricated into gaskets and accessories for use in sealing and glazing industrial and transportation OEM applications.	*Glazing gaskets *Bumpers *Air seals	*O-rings & Specialty extrusions *Decorative trim & caps *Vehicle glazing systems	Packaged based on customer requirements, profile size, configuration and the need for molded picture frame gaskets.	Black	
TremPro EPDM	Extrusions are fabricated into gaskets and accessories for use in sealing and glazing industrial and transportation OEM applications.	*Glazing gaskets *Bumpers *Air seals	*O-rings & Specialty extrusions *Decorative trim & caps *Vehicle glazing systems	Packaged based on customer requirements, profile size, configuration and the need for molded picture frame gaskets.	Black	
TremPro Neoprene	Extrusions are fabricated into gaskets and accessories for use in sealing and glazing industrial and transportation OEM applications.	*Glazing gaskets *Bumpers *Air seals	*O-rings & Specialty extrusions *Decorative trim & caps *Vehicle glazing systems	Packaged based on customer requirements, profile size, configuration and the need for molded picture frame gaskets.	Black	
TremPro SCR-900	Silicone Compatible Rubber Extrusion (SCR) is fabricated into gaskets and accessories, for use in sealing and glazing industrial and transportation OEM applications.	*Glazing gaskets *Bumpers *Air seals	*O-rings & Specialty extrusions *Decorative trim & caps *Vehicle glazing systems	Packaged based on customer requirements, profile size, configuration and the need for molded picture frame gaskets.	Black	
TremPro Silicone Extrusions	Silicone Dense Rubber Extrusions are fabricated into gaskets and accessories for use in sealing and glazing industrial and transportation OEM applications.	*Glazing gaskets *Bumpers *Air seals	*O-rings & Specialty extrusions *Decorative trim & caps *Vehicle glazing systems	Packaged based on customer requirements, profile size, configuration and the need for molded picture frame gaskets.	Black
