

# TREMPRO® CHEM-X® PRO

Single-component, non-sag, hybrid elastomeric adhesive / sealant that is designed to bond to a variety of substrates

## Product Overview

With its high green strength, TREMPRO® Chem-X® Pro can be used on virtually any interior or exterior application. Versatile adhesion and performance to most non-porous and porous substrates.

TREMPRO Chem-X Pro's flexibility allows for it to be used in an array of applications, including modular structures, semi-trailers, rail cars, RV's, cargo trailers, solar panels, storage tanks, and metal to metal. It can also be used in specialty OEM applications as a general assembly aid.

## Features & Benefits

- Quick cure with excellent green strength that bonds to most substrates
- Low VOC and solvent-free for virtually no odor and no restrictions on applications
- Can be applied in low temperatures or in adverse weather conditions
- NSF approved for food and water contact
- Can be submerged in fresh water or salt water
