**Tremco Commercial Sealants & Waterproofing awarded the 2010 Quality Service Leadership Award by MAGNET, Cleveland State University and Rotary Club of Cleveland**

CLEVELAND, Ohio (May 6, 2010) – Tremco Commercial Sealants & Waterproofing (CS&W) was recognized for its commitment to excellence in LEAN manufacturing and for developing a corporate culture that fosters ongoing improvement. Manufacturing advocacy group, MAGNET, Cleveland State University's Nance College of Business Administration and the Rotary Club of Cleveland honored the company with the Quality Service Leadership Award on May 6. Ken Recko, vice president of Manufacturing, North America, accepted on behalf of Tremco CS&W.

Tremco CS&W's four major manufacturing sites embrace Six Sigma and LEAN as part of their corporate culture to eliminate waste, improve quality, and reduce throughput time. Numerous BPE teams, 5S events, Kaizen Events, and extensive tracking of performance using visual factory tools have been implemented within the manufacturing plants, amounting to significant cost savings, improved efficiency, increased productivity and better customer satisfaction.

"I am extremely proud of the positive initiative, hard work and expertise our employees provide each day. The quality of our work is evident in our service levels and the productivity improvements at the plants," Ken Recko said.

About Tremco Commercial Sealants & Waterproofing

Tremco Commercial Sealants & Waterproofing is North America's leading supplier of integrated building envelope solutions for the commercial construction industry. Tremco CS&W also serves the OEM, residential glazing and weatherization markets. Product lines include high-performance silicone and urethane joint sealants, waterproofing membranes, drainage protection, air barrier systems, deck coatings, expansion joints, a full line of passive fire protection products and systems, and the industry's only comprehensive line of glazing systems including silicone sealants, tapes, gaskets, and setting blocks. With experienced sales representatives in every major market throughout North America, Tremco is positioned to provide assistance for specification development, application-specific product development, problem-solving and assistance on site.
