

Product Description

Tremco's Polyurethane-Methacrylate (PUMA) Technology provides superior elongation over traditional MMA/PMMA technology systems. Tremco PUMA TC (top coat) affords excellent abrasion resistance, UV stability and chemical resistance to complete Vulkem® EWS and select TREMproof® PUMA systems.

¹ FAA White (17925) and FAA Yellow (13538) colors match Federal Standard 595C color specifications.

² Compatible with Tremco PUMA Top Coat (TC) Tintable at up to 3 paks per 6 gallon unit. If custom colors are needed, Tremco can custom color match with Universal Color Paks.

All colors shown are approximate and may not reflect sheen or shade precisely, as varied amounts of aggregate added will alter light-reflecting properties.

Tremco always recommends a test patch be done to gain final color approval.

Different lighting conditions can influence color appearance: for truer color please view in daylight.

Some colors may require a minimum quantity. Custom colors are available upon request.

Please contact Tremco Customer Service for more information.
