**Solar Reflectivity Index for Vulkem 351/351NF**

Tremco, as an organization, is committed to quality, responsive to internal and external customers, our employees, our community and environment, and we will treat all with respect and good stewardship.

The topcoats of our Deck Coating Systems, including Vulkem 351 and Vulkem 351NF, have been tested internally in different colors to determine the coatings Solar Reflective Index (SRI) Value. The results are as follows:

- **Vulkem 351 Beige**  \( \text{SRI} = 40.21 \)
- **Vulkem 351 Maple**  \( \text{SRI} = 17.99 \)
- **Vulkem 351 Slate Gray**  \( \text{SRI} = 19.4 \)
- **Vulkem 351 White**  \( \text{SRI} = 93.06 \)
- **Vulkem 351 Limestone**  \( \text{SRI} = 47.4 \)
- **Vulkem 351 Gray**  \( \text{SRI} = 39.5 \) *Third Party Validated*

Additionally, several of these coatings will aid in obtaining LEED™ credits, particularly Sustainable Sites Credits which address the heat island effect of non-roof and roof areas.

Please contact Tremco Technical Service at 866-209-2404 with any questions regarding this bulletin.
