SOLUTIONS FOR RV
PROVEN, PRO-GRAGE PROTECTION — BACKED BY A 10-YEAR MANUFACTURER’S WARRANTY

WHAT IS THE TREMPRO RV ROOF PROTECTION SYSTEM GUARANTEE?
The TremPRO RV Roof Protection System is warranted against any material defect for a full 10 years.

HOW CAN DEALERS PARTICIPATE?
The TremPRO RV Roof Protection System is currently available for installation only by professional, Tremco-trained RV dealers in the Route 66 RV Network. To participate, contact Tremco Technical Services to schedule and complete the TremPRO RV Roof Protection System installation, sales and administrative training at no cost to your dealership.

WHAT ELSE IS REQUIRED OF PARTICIPATING DEALERS?
• Purchase and use a Tremco-approved moisture meter to identify eligible units
• Install the system on qualifying units according to Tremco’s instructions
• For approved claims, provide labor for repairs at owner’s expense

WHAT FREE SUPPORT WILL DEALERS RECEIVE FROM TREMCO?
• Training and technical support
• Marketing tools like POP displays, literature and videos
• Direct marketing to customers
• Materials needed for claims repairs

PRODUCTS & TYPICAL USES:

TremPRO® RV Roof Sealant
Premium self-leveling secondary/penetration sealant
• Vents
• Skylights
• Stacks
• Ladders
• Drip edges

TremPRO® RV Premium Roof Coating
High-performance, two-part, bio-based polyurethane roof coating
• Excellent flexibility, tensile strength and elongation
• Easy to maintain
• Weather extremely well
• Very resistant to traffic, extreme temperatures, UV exposure and mold/mildew/fungus

WHAT FREE SUPPORT WILL DEALERS RECEIVE FROM TREMCO?
• Increased adhesion properties
• Better preforming primer
• Thicker consistency doesn’t drip
• Seals the surface to ensure adhesion

• Tremco OneSeal™
  Waterproof, flexible spray seal for minor but long-lasting patch and repair projects
  • For instant repair of rubber roof membranes
  • Undercarriage coating
  • Fast-drying, quick-filming

• Tremco OneSeal™
  Quick-drying, easy-to-apply, water-based primer
  • Conditions a variety of roof substrates
  • Meets VOC standards
  • Low odor

• TremPrime Silicone Porous Primer
  Used to promote adhesion of TremPRO RV Roof Sealant to the TremPRO RV Premium Roof Coating.
  • Increased adhesion properties
  • Better preforming primer
  • Thicker consistency doesn’t drip
  • Seals the surface to ensure adhesion

PROVEN, PRO/grade PROTECTION / EMASH/ case BACKED BY A 10/ hyphen case YEAR MANUFACTURER’S WARRANTY
Tremco’s complete line of sealants, adhesives, tapes and weather barriers helps maximize productivity for RV and trailer work — meeting demanding performance requirements through durable, weatherproof seals for joints and seams; protection against stress and vibration; and heat and UV resistance. With Tremco’s product portfolio, we are able to provide solutions for your every-day OEM or after-market applications.

Streamlined Supply Chain
As single-source provider, Tremco helps simplify the material selection and ordering processes, saving you time and reducing costs.

Plant Audit and Stakeholder Analysis
Our technical experts offer in-depth plant audits and guidance on product selections tailored to your application and budget demands.

Custom Small-Batch Solutions
Advanced R&D capabilities include application-specific product design and custom solutions to meet your specific requirements.

Comprehensive System Testing
Testing to AAMA and ASTM standards is routinely conducted at our state-of-the-art Sustainable Building Solutions Test Facility.

Dedicated Sales and Technical Support
Our experienced field representatives provide specification development, problem-solving and assistance on-site.
ABOUT US

With decades of experience in the design, development and manufacture of products for commercial construction, Tremco has become the industry leader in ensuring performance in the highest-risk connections on building envelopes. Applying that expertise to transportation, we help ensure water and air-tight construction from original manufacture to aftermarket.

Along with affiliate Chemtron International, we bring over 20 high-performance, specialized products to the RV and transportation markets. After selecting the appropriate product type — sealant, adhesive, tape, gasket or coating — we can determine the perfect solution by technology: silicone, urethane, butyl, acrylic or even hybrid/spur.

Tremco and Chemtron are part of RPM International, Inc., whose subsidiaries employ 13,000 people worldwide, and manufacture high-performance coatings, sealants and specialty chemicals in 116 facilities across 26 countries.
