NOTE: Recommended for lightly reinforced slabs that are less than 6" thick, with minimal construction traffic.

NOTE: Paraseal products require a min of 24 PSF of compaction/confinement in order to function as designed.

NOTE: Not recommended for use in submerged conditions.

NOTE: Refer to detail B-BSOG-04-LG20

NOTE: If Mud Slab is not placed refrain from using chipped aggregate.

Mat slab

Superstop Waterstop at all cold joints

Paraseal LG with bentonite side up

Compacted granular base or soil, compact to 85% (min.) modified proctor density rating

Lap seams 4" min. and secure with wide crown box staples only at the seams located at 8" O.C.
