

# SUCCESS STORY:

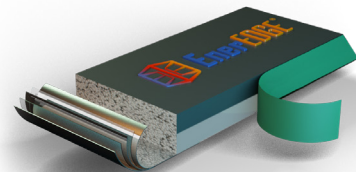

# Lifestyle Home Products

## Company Profile

Lifestyle Home Products was founded in 1989 by brothers Bill and Keith Carroll. The company has grown significantly over the past 30+ years due to their high-quality products and service. Lifestyle Home Products manufactures sunrooms, metal roofs, windows, and doors out of their 150,000 sq. ft. facility in Peterborough, Ontario. One of the components in Lifestyle Home Products window manufacturing is Tremco's EnerEDGE® warm-edge spacer.

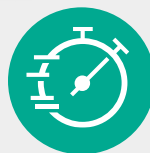

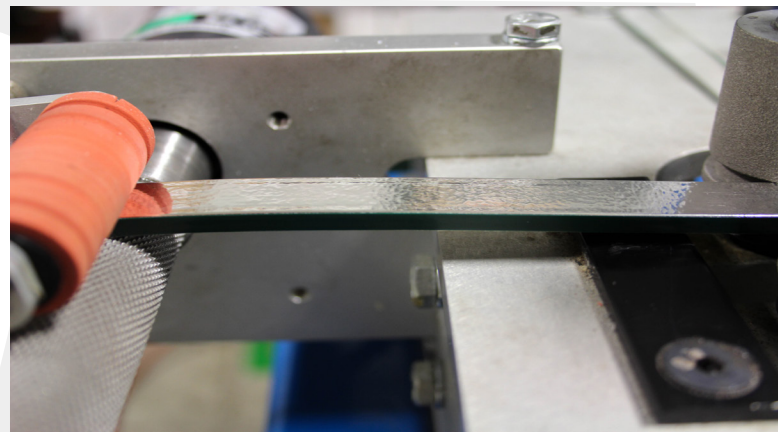

### Product Used

EnerEDGE® warm-edge spacer

## Tremco Value Proposition

Lifestyle Home Products was drawn to the product quality of EnerEDGE, but it was also the customer support that sold them on partnering with Tremco. The goal for Tremco is to be a resource for businesses, not just another supplier. With a skilled sales and technical team, Tremco is able to support customers throughout the entire insulated glass manufacturing process.

Tremco's stocking program means you never have to wait for EnerEDGE inventory

Superior thermal efficiency when compared to traditional, aluminum spacers

## Fast Order Fulfillment

Tremco's unique stocking program means Lifestyle Home Products, and all customers, are never waiting weeks for their orders to be delivered. Tremco stocks 60 days of inventory in our local warehouse specifically for each customer. This means that when an order is placed it arrives at our customer's facility in a matter of days.

*"Knowing that we are able to get our spacer quickly is great peace of mind. We never have to worry about our manufacturing line getting shut down because we ran out of material."*

**Brian Burgess, Purchasing Manager**

## Best-in-Class Performance

Tremco's EnerEDGE spacer is the most thermally efficient silicone spacer available today (0.118 W/m•K). EnerEDGE also contains the most desiccant on the market (47% by weight). These features ensure the outside elements stay out and that the window always offers a clear, fog-free view.

*"We have a very strong record of providing our customers with windows that will help lower their energy costs and look great for a long time. We know that using EnerEDGE has played a big role in maintaining our standard of offering the highest quality products."*

**Bill Carroll, Owner**

## Unequaled Customer and Technical Service

All of Tremco's sales and technical representatives are highly trained and work directly for the company. Lifestyle Home Products has experienced the benefits of Tremco's expertise through a quality audit program, gas retention testing, and our knowledge of insulated glass manufacturing.

*Tremco's testing laboratory*

*"The service we have received from Tremco has been superb! Their knowledge and attention to detail has helped us optimize our operation and maintain the high quality we demand."*

**Yvonne Wilson, Production Manager**

## Tremco and Lifestyle Home Products - A Perfect Match

Lifestyle Home Products has enjoyed the benefits of Tremco's high quality EnerEDGE spacer along with our unmatched sales and technical service. At Tremco we see our customer's success as our own. The trust Lifestyle Home Products has in Tremco's products and representatives didn't just happen; it was earned.
