

PREBUCK® PARAPET CAP

Treated LSL Engineered Framing

SPEED. SIMPLIFY. EXTEND. RESTORE.

Prebuck® engineered solutions for your parapet blocking allow the contractor to leverage the speed and efficiency of custom designed components. On new construction or renovations Prebuck solutions provides sustainable and dependable results to extend the life of your structure.

**Reduce labor hours, control your schedule
and enhance safety on your next project**

- Prebuck caps can be installed by fewer employees
- Color coding makes for easy placement and organization at job sites
- Counter sunk holes hide fasteners

Parapet Cap Installation Time Study

- ✓ Filmed at our Building Science Lab in Beachwood, Ohio.
- ✓ A master carpenter and their apprentice spent nearly 2 hours installing 60 feet (18.28 meters) of parapet cap using traditional methods. With Prebuck, the same crew completed the job in just 20 minutes!
